

The update procedure through OTA – Allview M9 Connect / Android 4.4.2 / 18.10.2017

The software update advantages are:

- ✓ software stability improvement;*
- ✓ fixing some minor bugs.*

ATTENTION! *The phone must be fully charged when initializing the procedure.*

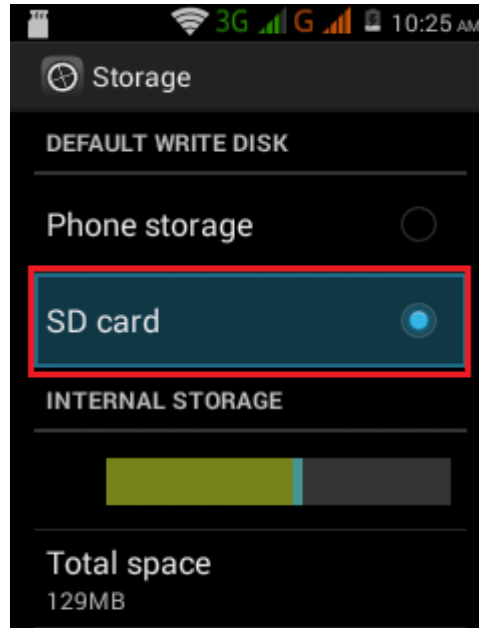

ATTENTION! *Please do not stop the update operation under any circumstance.*

The software update is an operation made on own responsibility by following the steps below.

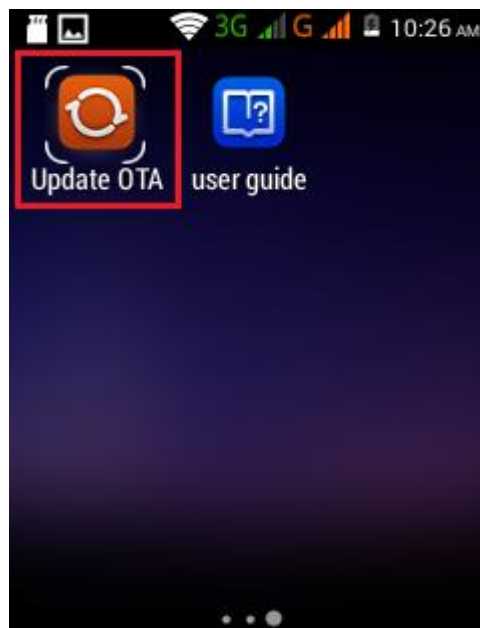

To update the software version of the *Allview M9 Connect* smartphone please follow the next steps:

1. Turn on the phone and connect it to a wireless network.
2. Make sure you have the SD Card inserted in phone and selected as the default location writing.

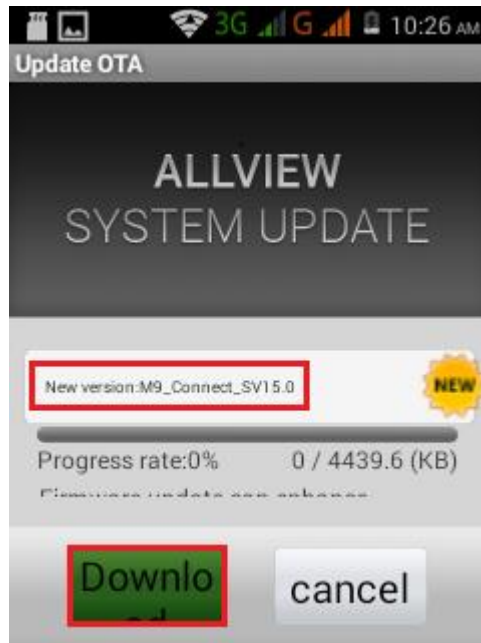

3. Open the "Update OTA" app from *Menu*:

4. In **“Update OTA”** app check for new software version (**M9_Connect_SV15.0**). Click on **Download**:

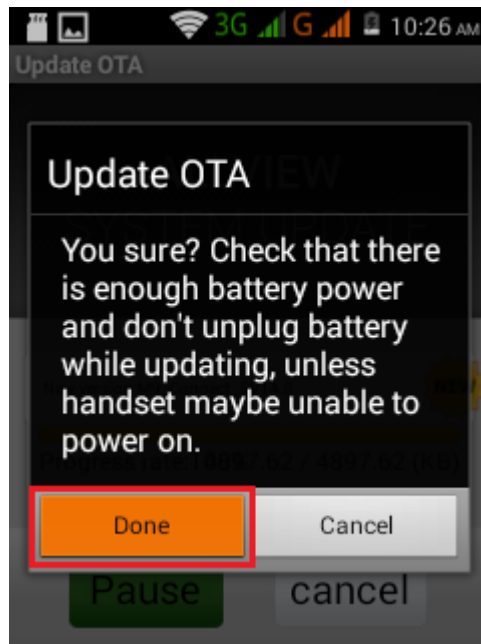

5. Please wait for the full software download in the phone's storage (micro SD card).

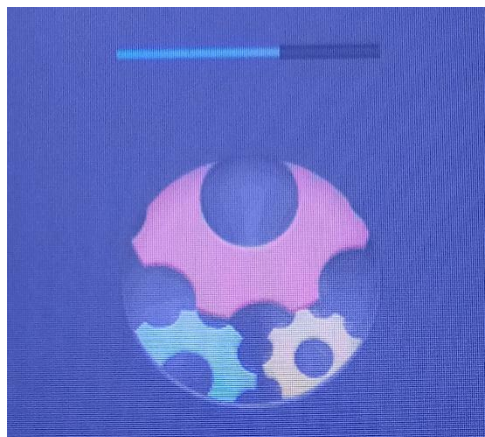

6. After the full software download, a message that will inform you about this update will be displayed on the phone's screen:

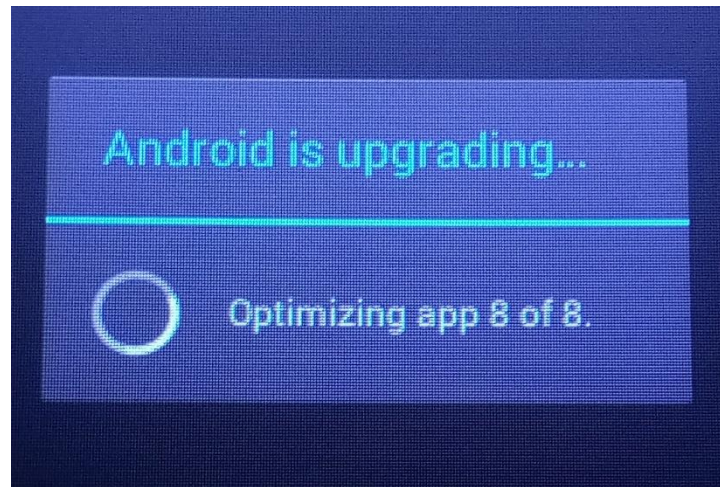

7. Select **Done**. The phone will reboot and the update procedure will automatically start.

8. After finishing the update process, the phone will reboot itself.

9. ***“Android is upgrading”*** message will be displayed on the phone's screen.

The update file downloaded in the phone's storage (micro SD card) will be automatically deleted after the termination of the update process.
